## Introduction to the Course

This delivery mode is intended for persons in all states who are working in the Building and Construction Industry.

CPCCOHS1001A 'Work safely in the construction industry' covers a range of occupational health and safety issues, procedures and requirements to prepare those intending on working in the industry.

People who complete this unit will receive a statement of attainment which is recognised in all states and territories of Australia. A 'White Card' will also be issued to all those who are deemed competent.

## Online Supplementation of the Course

This course is supplemented online at <http://training.qtm.net.au>, a web-based learning environment that is to be used to provide course information and learning material needed for completion of this course.

If you are new to the online environment and require assistance of any kind, please make sure you direct your queries to the appropriate area in order to get the result you need quickly.

For content-related issues, contact your Course Coordinator. For technical issues relating to your online course, please contact your Lecturer. The access to your online course will become available once payment has been received and processed.

This course is offered by on-line delivery.

### Advantages:

Flexibility	Allows you to work through course content at a time which suits you, your work and your own learning style.
Accessibility	Equally accessible for persons in all locations e.g. Remote, rural and metro.
Efficiency	No need to travel to course location and be away from work for a number of days.
Economy	No travel and accommodation costs and less 'down time' away from work.

### The On-line course package consists of:

Course Notes	Contains most course content and some embedded movie footage. You can work through this material at your own pace.	
Assessment Package	This includes:	
	1. Theory Exam	An online theory examination questionnaire which you must complete.

### Using this package

It is suggested that you read through the course package at your own pace, making note of key points or any areas which are not clear to you.

Should you have any questions or areas of difficulty, please use the on-line live help facility (or ring 1300 557 930) to register your query with our training staff, one of whom will reply to your query within two working days.

You are not required to memorise the content of any attached documents. What is required here is an understanding of the health and safety requirements and the ability to extract required information from the information provided.

### Method of Assessment

Assessment	Type of Assessment	Passmark	Due Date
Assessment 1: Theory Assessment	Written Theory	100%	

NOTE: A satisfactory standard in each component of assessment is necessary for a pass in the course.

### Assessment Details

#### Assessment 1: Theory Assessment

This questionnaire is designed to test your knowledge of the theory and concepts presented in the course package. The minimum pass mark is 100% and the questionnaire usually takes between 20 to 30 minutes to complete.

#### *Some Tips:*

- You must complete the questionnaire unassisted by others and also complete the declaration on the cover sheet of the assessment.
- The questionnaire is an 'open book' assessment so you may refer to the course package and any other relevant documentation when completing it.
- Please answer all questions.
- If a question is proving particularly difficult for you, it might be better to move onto another question and come back to the troublesome one at another time.
